Summary

I am a skilled Web Developer with experience in **Angular**, **PHP**, and **MySQL**. I have a strong track record of designing and building web applications that are easy to use and responsive across different devices. I am proficient in creating user-friendly interfaces and improving backend performance. I am always eager to learn new technologies and apply them to solve real-world problems efficiently.

Education

- **Lovely Professional University, Jalandhar, Punjab** 2020-2023
Bachelor of Computer Applications
- **R Saroj Inter College** 2020
Higher Secondary
- **Alma Institute, Buxar, Bihar** 2018
Diploma in Computer Application

Experience

- Arrah Helping Hands** | *Web Developer Intern* July 2024
- Developed a web app for a non-profit organization focused on blood donation, food distribution, health services, and education support. Used **PHP**, **HTML**, **Preline Tailwind CSS**, and **MySQL** to create a donor registration system and manage user data. Built a responsive interface to ensure accessibility on all devices. Helped streamline operations and improve the organization's ability to connect with volunteers and the community.

Projects

- Aseptic & Hot-Filled-Hold Process Recommendation Software** | *Web Application* May 2023
- **Technologies:** *HTML | Angular | JsPdf.*
 - Developed a web application to recommend Aseptic and Hot-Fill-Hold processes.
 - Utilized **Angular** for dynamic UI and seamless user interactions.
 - Integrated **JsPdf** to generate and download process recommendations in PDF format.
 - Ensured a smooth and responsive user experience with **HTML** and **Angular** best practices.
- Blood Donor App** | *Web Application* June 2024
- **Technologies:** *PHP | HTML | Preline Tailwind CSS | MySQL.*
 - Developed a web application for a non-profit organization that provides blood donation, food distribution, health services, and education support.
 - Implemented a blood donor registration system and managed user data with **MySQL**.
 - Created a responsive and user-friendly interface using **Preline Tailwind CSS** to ensure accessibility across all devices.
 - Improved the organization's ability to connect with donors and volunteers, streamlining key operations.
- Online Food Ordering Website** | *Web Application* July 2023
- **Technologies:** *HTML | CSS | PHP | MySQL*
 - Developed a fully functional online food ordering platform for restaurants.
 - Implemented user-friendly interfaces using **HTML** and **CSS** for a seamless browsing experience.
 - Built the backend using **PHP** to manage order processing, user authentication, and menu updates.
 - Designed and optimized a **MySQL** database to handle customer orders, food items, and payment data.
 - Ensured smooth communication between the front-end and back-end, providing real-time order tracking and updates.

Skills

- **Technical Skill:** HTML | CSS | JavaScript | PHP
- **Framework & Libraries:** Angular | Bootstrap | Tailwind CSS | IONIC | JsPdf
- **Database:** MySQL | Firebase

Achievements

- **Increased Efficiency:** Improved data processing time by 30% through the optimization of PHP and SQL queries in a web application project.
- **Enhanced User Experience:** Designed a responsive interface using Preline Tailwind CSS, improving mobile user engagement by 20%.

Extra-Curricular Activities

- **Volunteer, Arrah Helping Hands:** Assisted in organizing blood donation camps and food distribution drives for underprivileged communities.
- **Event Organizer, Tech Fest 2023:** Organized a tech symposium at Lovely Professional University, coordinating with teams for smooth execution of events and workshops.
